Instructions for Idaho Form 71

GENERAL INSTRUCTIONS

The biofuel investment tax credit was eligible to be earned on qualified investments in Idaho that were placed in service in tax years beginning in 2007 and ending December 31, 2011. Although the credit can no longer be earned, it may be carried over.

Form 71 is used to calculate the biofuel investment tax credit allowed. Each member of a unitary group that is allowed the credit must complete a separate Form 71.

Unitary Sharing

A corporation included as a member of a unitary group of corporations may elect to share the biofuel ITC it earned but does not use with other members of the unitary group. The corporation must claim the credit to the extent allowable against its Idaho income tax before it can share the credit.

Carryover Periods

You may carry forward for five tax years biofuel ITC that was earned but not used against tax. For purposes of the carryover period, a short tax year counts as one tax year.

Recapture

You must compute recapture if you sell or otherwise dispose of the property or it ceases to qualify for the biofuel ITC before it has been in service for five full years.

File Form 71R to report recapture of the biofuel ITC.

SPECIFIC INSTRUCTIONS

Line 1. Enter the carryover from your 2015 Form 71, line 27.

Line 2. If you are a member of a unitary group, enter the amount of credit you received from another member of the unitary group.

Line 4. If you are a member of a unitary group of corporations, enter the amount of credit you earned that you elect to share with other members of your unitary group. Before you can share your credit, you must use the credit up to the allowable limitation of your Idaho income tax.

Corporations claiming the biofuel ITC must provide a calculation of the credit earned and used by each member of the combined group. The schedule must clearly identify shared credit and the computation of any credit carryovers.

CREDIT LIMITATIONS

If you are claiming against tax the Idaho credit for qualifying new employees, skip lines 6 through 24 and compute the limitations on Form 55, Idaho Credit for Qualifying New Employees, Part II, Credit Limitations. The biofuel ITC and most other credits will be limited to 50% of your Idaho income tax. Return to Form 71, line 25 to compute the credit carryover.

If you aren't claiming against tax the credit for qualifying new employees, compute the credit limitations on Form 71. The biofuel ITC is limited to 50% of your Idaho income tax or the Idaho income tax after allowing all other tax credits that can be claimed before the biofuel ITC.
