2024 Supplemental Guidelines to California Adjustments

What's New

Wildfire Relief Payment – For taxable years beginning after December 31, 2019, and before January 1, 2026, the Federal Disaster Tax Relief Act of 2023 allows an exclusion from gross income for any amount received by an individual as a qualified wildfire relief payment. Generally, California law **does not** conform. If any qualified amount was excluded from income for federal purposes and California law provides no similar exclusion, include that amount in income for California purposes. For more information, see instructions in this publication and get Schedule CA (540), California Adjustments – Residents, or Schedule CA (540NR), California Adjustments – Nonresidents or Part-Year Residents. For specific wildfire relief payments excluded for California purposes, see General Information.

Net Operating Loss Suspension – For taxable years beginning on or after January 1, 2024, and before January 1, 2027, California has suspended the net operating loss (NOL) carryover deduction. Taxpayers may continue to compute and carryover an NOL during the suspension period. **However**, taxpayers with net business income or modified adjusted gross income of less than \$1,000,000 or with disaster loss carryovers are **not** affected by the NOL suspension rules.

The carryover period for suspended losses is extended by:

- Three years for losses incurred in taxable years beginning before January 1, 2024.
- Two years for losses incurred in taxable years beginning on or after January 1, 2024, and before January 1, 2025.
- One year for losses incurred in taxable years beginning on or after January 1, 2025, and before January 1, 2026.

For more information, see California Revenue and Taxation Code (R&TC) Section 17276.24, and get form FTB 3805V, Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations – Individuals, Estates, and Trusts.

Intangible Drilling and Development Costs – California law does not allow the Internal Revenue Code (IRC) Section 263(c) deduction for intangible drilling and development costs in the case of oil and gas wells paid or incurred on or after January 1, 2024. For more information, see instructions in this publication, get Schedule P (540), Alternative Minimum Tax and Credit Limitations – Residents, or Schedule P (540NR), Alternative Minimum Tax and Credit Limitations – Nonresidents or Part-Year Residents, and form FTB 3885A, Depreciation and Amortization Adjustments, and see R&TC Section 17260.

Percentage Depletion – For taxable years beginning on or after January 1, 2024, California law does not allow the calculation of depletion as a percentage of gross income from the property for specified

natural resources, including coal, oil shale, oil and gas wells. R&TC Sections 17681.3 and 17681.6 allowing state nonconformity to federal rules for percentage depletion of certain refiner exclusions as well as the temporary suspension of taxable income limit for marginal production have also been repealed. For more information, see instructions in this publication, get Schedule P (540) or Schedule P (540NR) and form FTB 3885A, and see R&TC Section 17681.

Enhanced Oil Recovery Credit Repeal – For taxable years beginning on or after January 1, 2024, the Enhanced Oil Recovery Credit has been repealed. Taxpayers may now only claim available carryovers. For more information, see instructions in this publication and get form FTB 3540, Credit Carryover and Recapture Summary.

Special Rules for Certain Distributions from Qualified IRC Section 529 Tuition Plans – The federal Consolidated Appropriations Act (CAA), 2023, allows qualified IRC Section 529 tuition plans that have been maintained for 15 years to rollover to a Roth Individual Retirement Arrangement (IRA) without a tax or penalty. Under the federal law, rollover distributions from an IRC Section 529 plan to a Roth IRA after December 31, 2023, will be treated in the same manner as the earnings and contributions of a Roth IRA. California law does not conform to this federal provision. Rollover distribution from an IRC Section 529 plan to a Roth IRA is includible in California taxable income and subject to an additional tax of 2½%. For more information, see instructions in this publication and get Schedule CA (540) or Schedule CA (540NR).

Catch-Up Contributions for Certain Individuals – For taxable years beginning on or after January 1, 2024, the federal CAA, 2023, provides for the indexing for the \$1,000 catch-up contribution to an IRA for individuals age 50 or older. The CAA, 2023, also increases certain contribution amounts, including catch-up contributions for individuals age 50 or over as defined in IRC Section 414(v). California law does not conform to these federal provisions. Any amount contributed that exceeds the contribution amount allowed for California may need to be included in income for California purposes. Any distribution from contributions in excess of the California limit may become taxable when distributed. For more information, see instructions in this publication, get Schedule CA (540) or Schedule CA (540NR), and get FTB Pub. 1005, Pension and Annuity Guidelines.

Wildfire Mitigation Payment – For taxable years beginning on or after January 1, 2024, and before January 1, 2029, California law allows a qualified taxpayer an exclusion from gross income for any amount received as a California qualified wildfire loss mitigation payment through the California Wildfire Mitigation Financial Assistance Program.

For more information, see instructions in this publication, get Schedule CA (540) or Schedule CA (540NR), and see R&TC Section 17138.8.

General Information

In general, for taxable years beginning on or after January 1, 2015, California law conforms to the Internal Revenue Code (IRC) as of January 1, 2015. However, there are continuing differences between California and federal law. When California conforms to federal tax law changes, we do not always adopt all of the changes made at the federal level. For more information, go to ftb.ca.gov and search for **conformity**. Additional information can be found in the instructions for California Schedule CA (540) or Schedule CA (540NR), and the Business Entity tax booklets.

The instructions provided with California tax forms are a summary of California tax law and are only intended to aid taxpayers in preparing their state income tax returns. We include information that is most useful to the greatest number of taxpayers in the limited space available. It is not possible to include all requirements of the R&TC in the instructions. Taxpayers should not consider the instructions as authoritative law.

Taxable Interest Income		
• Non-California bonds:		
1) United States	Federal law requires the interest earned on federal bonds (U.S. obligations) to be included in gross income. California does not tax this interest income. The following are not considered U.S. obligations for California purposes: Federal National Mortgage Association (Fannie Mae); Government National Mortgage Association (Ginnie Mae); or Federal Home Loan Mortgage Corporation (Freddie Mac).	Enter the amount of federal bond interest included in federal income on Schedule CA (540), Part I or Schedule CA (540NR), Part II, Section A, line 2, column B.

• Interest income received from settlement payments from individuals persecuted during the Ottoman Turkish Empire from 1915-1923	California law excludes from gross income, interest income received from settlement payments by individuals persecuted by the regime that was in control of the Ottoman Turkish Empire from 1915 until 1923, or the individual's heirs or estate.	Enter the interest on Schedule CA (540), Part I or Schedule CA (540NR), Part II, Section A, line 2, column B.
• Exempt interest dividends (mutual funds)	California does not tax dividends paid by a fund attributable to interest received from U.S. obligations or California state or municipal obligations if at least 50% of the fund's assets would be exempt from California tax when held by an individual. California taxes dividends derived from mutual funds that are paid from interest received from obligations (bonds) issued by non-California states or municipalities in other states. The fund will provide a statement regarding the dividends it pays.	If the value of U.S. and California state or municipal obligations is at least 50% of the fund's total assets, enter the amount of exempt interest dividends that are attributed to U.S. obligations included in federal income on Schedule CA (540), Part I or Schedule CA (540NR), Part II, Section A, line 2, column B. Dividend Income		
• Noncash patronage dividend from farmers' cooperatives or mutual associations	Federal law taxes the dividend in the year of receipt. California law permits an election to include the dividend in gross income either when received or when redeemed. Once an election is made, this method must be followed unless a change in the method of reporting is approved by the FTB.	If you elect or elected to include the dividend in the year redeemed, enter the amount received on Schedule CA (540), Part I or Schedule CA (540NR), Part II, Section A, line 3, column B. So when a federal S corporation first becomes a California S corporation, its initial accumulated adjustments account (AAA) has a zero balance regardless of the federal AAA balance. If distributions from the S corporation exceed the California balance in the AAA, you have a distribution from pre-1987 earnings.	Enter distributions from pre-1987 earnings (or earnings in any later year that the corporation was a federal S corporation and a California C corporation) on Schedule CA (540), Part I or Schedule CA (540NR), Part II, Section A, line 3, column C.
