CONSOLIDATED FEDERAL RETURN AND SEPARATE MISSOURI RETURN

A corporation, which is a member of an affiliated group filing a consolidated federal corporation income tax return, shall (if no Missouri consolidated return is filed) determine its federal taxable income as if it had filed a separate federal corporation income tax return for the year.

The corporation must enclose a **pro forma** Federal Form 1120, with all pertinent schedules, wherein its separate federal taxable income is computed with Form MO-1120. The first five pages of the actual consolidated federal corporation income tax return and an income statement, or a summary of profit companies for the year, must be attached. The complete consolidated federal return may be required upon an audit of the Missouri return.

Attach supporting statements for each corporation included in the consolidated return. Do not use Form MO-1120 as a supporting statement.

The corporation's federal income tax deduction will be a portion of the tax on consolidated Federal Form 1120. See Form MO-1120, Part 3.

SUBSIDIARIES INCLUDED IN THE FILING OF THIS RETURN

If the corporation is filing a consolidated Missouri return, attach a separate schedule that lists the names of the subsidiaries, Federal Identification Numbers and Missouri Tax Identification Numbers.

NET OPERATING LOSSES

Corporations that file a Missouri return with a federal net operating loss (NOL) must treat the loss under the provisions of the Internal Revenue Code. Corporations that file a consolidated federal and separate Missouri return must compute the separate federal taxable income as if each member filed a separate federal return. In any year an NOL is carried forward or carried back, a corporation is required to provide a schedule detailing each NOL: the year of the loss, the amount of the loss, the loss previously utilized and the amount of the loss currently being utilized on a consolidated and separate company basis.

For federal and Missouri purposes, a corporation can use the federal NOL incurred in one tax year to reduce the taxable income in another tax year. The NOL deduction cannot exceed the corporation's taxable income (after special deductions). An NOL deduction cannot be used to increase a loss in a loss year or to create a loss in a profit year.

A separate company is bound by the consolidated federal return election to carry losses forward or back, (i.e., if the loss is carried back on your federal return, the separate company loss must be carried back). If the loss is carried forward the corporation must provide detailed schedules reflecting the loss amount(s), year(s) of the loss, and year and amount of the loss utilized on a consolidated and separate company basis.

If the consolidated return shows taxable income and the separate company return shows a loss, the corporation may elect to carry the federal separate company loss forward or back pursuant to the Internal Revenue Code on a separate company basis in Missouri. The corporation must provide a copy of page 1 of the federal consolidated return for the separate company loss year.

The only NOL subject to carry forward or carry back is the loss from the federal tax return. Missouri does not have provisions for a state NOL deduction. A negative number on Form MO-1120, Lines 8, 9, or 13 is not an NOL.

If the corporation is required to file an amended Missouri return to carry back a federal NOL, provide the following information with the amended Form MO-1120:

- If the consolidated federal income is positive and you are carrying back a separate company loss, attach a copy of the consolidated Federal Form 1120 page 1 for the separate company loss year to confirm that there is no consolidated loss to be carried back.
- If the consolidated federal return is a loss for the current tax period and the previous tax periods are consolidated losses,

attach a copy of the consolidated Federal Form 1120 for the current tax period and the consolidated Federal 1120 for the tax period(s) being amended on a separate company basis.

- For tax periods that the consolidated return and separate company return show an NOL that is carried back, attach a copy of the consolidated Federal Form 1139 or Federal Form 1120X. Also include the income statement for the loss year, the revised income statement for the amended tax period(s), and a schedule showing the calculation of the federal income tax deduction on the amended return.

Note: The corporation is required to file an amended return to adjust the federal income tax deduction for any tax period that the consolidated tax liability changes due to an NOL carryback, even if no loss exists to be carried back on a separate company basis.

REPORTABLE TRANSACTION DISCLOSURE STATEMENT FEDERAL FORM 8886

Every corporation must attach a copy of each Federal Form 8886 that was filed with the IRS as part of its federal return or as part of a consolidated federal return.

UNCERTAIN TAX POSITION STATEMENT FEDERAL SCHEDULE UTP

A corporation must attach a copy of Federal Schedule UTP if the corporation has one or more tax positions that must be reported to the IRS on Schedule UTP and the schedule was filed with the IRS as part of its federal return or as part of a consolidated federal return.

DECLARATION OF ESTIMATED TAX

Every corporation subject to income tax in this state must make a declaration of its estimated tax for the taxable year on **Form MO-1120ES**, if its Missouri estimated tax could reasonably be expected to be at least \$250 (**Section 143.521, RSMo**).

If an affiliated group of corporations files a Missouri consolidated income tax return for the taxable year, its Missouri estimated tax payments may be combined on Form MO-1120 (**12 CSR 10-2.045(36)**).

A corporation may amend its declaration on Form MO-1120ES.

Mail the declaration of estimated tax payments to: **Missouri Department of Revenue, P.O. Box 3020, Jefferson City, MO 65105-3020**. Make the check payable to Missouri Department of Revenue and include your Missouri Tax Identification Number on your check.

You can file and pay Declaration of Estimated Tax for Corporation Income Tax (Form MO-1120ES), online using a Credit Card or E-Check (Electronic Bank Draft). To file and pay online, please visit dor.mo.gov/business/payonline.php.

EXTENSION OF TIME TO FILE AND PAY

If a corporation has been granted an extension of time to file its federal income tax return, the time for filing the Missouri corporation income tax return is automatically extended. Select the box at the top of the form indicating you have an approved federal extension and attach a copy of the Federal Extension, Form 7004, to the MO-1120. (Failure to check this box may result in disallowing the extension.)

An extension of time to file does not extend the time for payment of the tax. The corporation must pay, on or before the original due date, the amount properly estimated. If you expect to owe tax, file **Form MO-7004**.

FILING AMENDED RETURNS

Form MO-1120 must be used for amending tax year 2015 and forward for corporation income tax. The corporation must complete the entire return using the corrected figures. Complete each line using the corrected amounts. **Failure to fill out the entire return will delay the processing of the return.**

If there is any other liability owed the state of Missouri, the refund may be applied to that liability ([Sections 143.781, 143.782, 143.783, and 143.784, RSMo](#)). The corporation will be notified if any debts are offset with the refund. The Department requires approved refunds of \$100,000 or more to be issued electronically. If claiming a refund of \$100,000 or more, please file your return electronically to receive your refund by direct deposit to your bank account. Complete [Form 5378](#) and submit with your return. UNDERPAYMENT OF ESTIMATED TAX

Enter the addition to tax for underpayment of estimated tax from [Form MO-2220](#), Line 26. If the total payment and credit amount on Line 23 is less than 90 percent of the amount on Line 14, or if the estimated tax payments were not paid in full or timely, additions to tax for failure to pay enough estimated taxes may be owed. However, the corporation may be able to meet one of the exceptions explained on Form MO-2220. Attach a completed Form MO-2220. If there is an overpayment on Line 24, the Department of Revenue will reduce the overpayment by the additions to tax amount ([12 CSR 10-2.067 and Section 143.761, RSMo](#)).

LINE 3 - NET OPERATING LOSS MODIFICATION

If a net operating loss deduction is allowed for this tax year, and if, in the tax year of the corresponding net operating loss, the total addition modifications exceeded total subtraction modifications, enter the smaller of: (a) The net operating loss deduction attributable to the loss year (the tax year in which the net operating loss occurred); or (b) The cumulative net operating loss deductions attributable to the loss year that are allowed for this tax year and all prior tax years plus the net addition modification (amount that addition modification exceed the subtraction modifications) for the loss year minus the total net operating loss for the loss year.

The above items are each considered to be a positive amount for purposes of this calculation. If the result of combining amounts is negative, enter zero.

If the total net operating loss deduction for this tax year consists of net operating losses from more than one tax year, calculate the modifications separately for each loss and enter the total. If the total addition modifications exceed the total subtraction modifications in the tax year of the net operating loss, attach [Form MO-5090](#), Net Operating Loss Modification Worksheet. ([Section 143.431.4, RSMo](#)).

Enter on Line 1b the amount of interest on indebtedness and expenses associated with the production of interest and dividend income on federal obligations shown on Line 1a. The expenses must exceed \$500. Refer to Section 143.121.3(1), RSMo, for further explanation. In arriving at the amount of related expenses, the taxpayer may use actual expenses or a reasonable estimate. In general, the taxpayer should use the same or similar method to that used to compute related expenses for federal income tax purposes, provided that the method reasonably reflects related expenses for Missouri exempt income.

If a taxpayer fails to compute reasonable related expenses, the Department of Revenue will make adjustments based on the information available. If sufficient information is not available, the Department of Revenue will use the following formula to compute related expenses:

$$\frac{\text{Exempt Income}}{\text{Total Income}} \times \text{Expense Items} = \text{Reduction to Exempt Income}$$

The principal expense item in this formula is interest expense; however, the Department of Revenue may include other expense items because of their direct relationship to the production of exempt income. The taxpayer may propose an alternative method provided that it properly reflects the amount of related expenses.

Enter on Line 1 the net amount of Line 1a minus Line 1b.

LINE 2 - FEDERALLY TAXABLE - MISSOURI EXEMPT OBLIGATION

The amount of any bond issued by the Missouri Higher Education Loan Authority (MOHELA) including interest or proceeds resulting from the sale of the bond is exempt from Missouri tax. For example, any applicable 2018 through 2021 NOL carryback that was previously treated as an addition modification on the Missouri return for the 2013 through 2017 tax years. Do not enter a loss amount that has previously been reported on Line 9 for a prior tax year. Do not enter any loss amount if the tax year for which this return is filed is more than twenty years past the year of the initial loss. Do not enter any loss amount which was treated as an addition modification pursuant to [\(Section 143.121.2\(4\), RSMo\)](#), on or before June 18, 2002. [\(Section 143.121.2\(4\), RSMo\)](#).

LINE 3

Add Lines 1 and 2 and enter 50% of total.

If there is more than one loss year carryback, a separate Form MO-1120 must be filed for each loss year. For example, if you have an IRS audit or federal correction that includes a Net Operating Loss, one amended return must be filed for the federal audit and a separate amended return must be filed for the NOL.

The amended return must contain a complete explanation of the reason(s) for filing the claim or amendment. You must attach any required schedules or forms to support your claim. If the amended return is submitted without the proper attachments it may be partially or totally denied.

Part 5 - Amended Return Loss Carryback or Federal Tax Credit Carryback

Complete when there is a loss carryback or credit carryback. A loss would include an NOL. A loss carryback is required to be filed by the 15th day of the 39th month following the end of the loss year ([Section 143.801.6, RSMo](#)). Lines 2 and 3 should reflect the total net operating loss or capital loss carryback.

Line 4 should reflect the difference between the original and amended federal income tax deductions for Missouri Form MO-1120, Line 7. A separate Form MO-1120 must be filed for each loss year carryback.

Note: Missouri does not allow an NOL to be carried back more than two years; the amount of an NOL carried back more than two years results in an addition modification for the carryback year. (Section 143.121.2(4), RSMo). An NOL disallowed (added back) on this basis may be carried forward for 20 years from the loss year. See Form MO-1120, Part 2, Line 9.

ASSEMBLE YOUR RETURN

Assemble any forms and schedules behind Form MO-1120. If you have supporting documentation, arrange in the same order of the forms and schedules they support and attach behind the schedule they support.

RELEASE OF INFORMATION

The Department of Revenue can only release confidential information to corporate officers, authorized individuals having power of attorney, the preparer, or any member of their firm, or if internally prepared, any member of the internal staff, when the authorization box is checked. When the authorization box is checked, this authorizes the Missouri Director of Revenue or delegate to discuss this return and attachments with the preparer whose signature appears on the Form MO-1120 or with any member of their firm or if internally prepared, any member of the internal staff.

The Department of Revenue strives to assist taxpayers in their inquiries; however, the Department of Revenue is bound by confidentiality statutes dealing with the release of confidential information. If you are contacting the Department of Revenue regarding financial information of a corporation, refund issuance, or filing status of a corporation, you will be asked to identify your position with the corporation. If you are an officer of the corporation, an authorized individual having power of attorney, the preparer or any member of their firm, or if internally prepared, any member of the internal staff, the authorization box on the form must have been checked for the Department of Revenue to release financial information. To prevent delays in answering questions, you must provide the Department of Revenue with a [Form 2827](#), Power of Attorney, prior to making the inquiry. This also applies to employees of the corporation. This form must list the tax type, the tax form, and tax year(s) in question. These procedures are to protect the taxpayer from unauthorized disclosure of financial records. To update corporate officers, send [Form 126](#) : Taxation Division, P.O. Box 3300, Jefferson City, MO 65105-3300 or email at corporate@dor.mo.gov.

FORM MO-MS INSTRUCTIONS

This information is for guidance only and does not state the complete law.

GENERAL INSTRUCTIONS

Complete the Form MO-MS if taxable corporation income is not 100 percent from Missouri sources. This form must be completed even if Missouri taxable corporation income is zero. If the corporation owns a percentage of a partnership(s), the partnership factors must be multiplied by the corporation's percentage of ownership, and then added into the corporation's apportionment factors. All taxpayers that do not qualify for a Special Method (Methods Three through Seven) must choose Method Two A - Receipts Factor Apportionment.

APPORTIONMENT ELECTION

Missouri statutes provide a number of methods for determining Missouri taxable income from Missouri sources. Choose only the appropriate one of the listed methods and enter the method number on Form MO-1120, Line 9 Method. Once an election has been made, it cannot be changed with respect to the same taxable period.

METHOD TWO A

Receipts Factor Apportionment — [Section 143.455.2, RSMo](#). See instructions for completing Method Two A.

METHOD THREE

Transportation — [Section 143.455.14, RSMo](#).

METHOD FOUR

Railroad — [Section 143.455.15, RSMo](#).

METHOD FIVE

Interstate Bridge — [Section 143.455.16, RSMo](#).

METHOD SIX

Telephone and Telegraph — [Section 143.455.17, RSMo](#).

METHOD SEVEN

This method can be used only with prior approval from the Missouri Director of Revenue or pursuant to a Missouri regulation creating an alternative industry-specific method under [Section 143.455.13\(1\), RSMo](#).

Receipts Factor Apportionment Instructions - Step 1

A taxpayer must have income from business activity taxable by this state and at least one other state to apportion and allocate income. Income from business activity includes apportionable and nonapportionable income. The taxpayer's income will be allocated and apportioned according to Section 143.455. The taxpayer must determine which portion of the taxpayer's federal taxable income constitutes "nonapportionable income." The various items of nonapportionable income are directly allocated to specific states, which may include Missouri. The apportionable income of the taxpayer is divided between states by using the receipts factor. The sum of the items of nonapportionable income directly allocated to this state, plus the amount of apportionable income attributable to this state by the apportionment formula constitutes the amount of the taxpayer's Preliminary Missouri taxable income.

Items of nonapportionable income may be reported on Form MO-MS or Form MO-NAI only to the extent **such items** are included in Form MO-1120, Line 8 (Taxable Income - All Sources). For example, an item of nonapportionable income that was added on Form MO-1120, Line 3, would also be reported on Form MO-MS and Form MO-NAI. If all or part of an item of nonapportionable income was subtracted on Form MO-1120, Line 5, do not report the amount of nonapportionable income so subtracted on Form MO-MS or Form MO-NAI.

1400000001

APPORTIONABLE AND NONAPPORTIONABLE INCOME DEFINED

“Apportionable income” means all income that is apportionable under the Constitution of the United States and is not allocated under the laws of this state. Apportionable income includes, but is not limited to, income arising from transactions and activity in the regular course of the corporation’s trade or business. Apportionable income also includes, but is not limited to, income arising from tangible and intangible property if the acquisition, management, employment, development, or disposition of the property is or was related to the operation of the corporation’s trade or business. “Nonapportionable income” means all income other than apportionable income. The classification of income by the labels customarily given them, such as interest, dividends, rents, and royalties, is not conclusive in determining whether the income is apportionable or nonapportionable income. Nonapportionable income will be considered only if a detailed Form MO-NAI is completed and attached.

TAXABLE IN ANOTHER STATE

A taxpayer is “taxable in another state” if it meets either one of two tests:

- (a) if by reason of business activity in another state the taxpayer is subject to one of these taxes: a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax; or
- (b) if another state has jurisdiction to subject the taxpayer to a net income tax, regardless of whether or not that state imposes such a tax on the taxpayer.

The first test is applicable only if a taxpayer carries on business activities in another state. If the taxpayer voluntarily files and pays one or more of such taxes when not required to do so by the laws of that state or pays a minimal fee for qualification, organization, or for the privilege of doing business in that state, but:

- (a) does not actually engage in business activities in that state; or
- (b) does actually engage in some activity, not sufficient for nexus, and the minimum tax bears no relation to the corporation’s activities within such state, the taxpayer is not “taxable” in another state.

The second test applies if the taxpayer’s business activities are sufficient to give the state jurisdiction to impose a net income tax under the Constitution and statutes of the United States. Jurisdiction to tax is not present where the state is prohibited from imposing the tax by reason of the provisions of Public Law 86-272, 15 U.S.C.A. Sections 381-385. If you believe you do not have sufficient nexus and you are not liable for Missouri tax, you may **complete a [Form 4458, Business Activity Questionnaire](#)**. For Missouri forms access the Department of Revenue’s website at [dor.mo.gov](#).

LINES 1, 2, AND 3 - RECEIPTS FACTOR

Complete Part 1, Lines 1 through 3.

- The denominator of the receipts factor is generally all gross receipts received by a taxpayer from transactions and activity in the regular course of its trade or business. However, receipts from hedging transactions or from the maturity, redemption, sale, exchange, loan, or other disposition of cash or securities (e.g. stocks, stock options, bonds) must not be included in either the numerator or denominator of the receipts factor. The numerator of the receipts factor is generally all gross receipts in Missouri from transactions and activity in the regular course of the taxpayer’s trade or business.
- **Tangible Personal Property.** Receipts from the sale of tangible personal property are in this state if the property is received

in Missouri by the purchaser. Receipts from the rental, lease, or license of tangible personal property are in this state to the extent that the tangible personal property is located in Missouri.

- **Real Property.** Receipts from the sale, rental, lease, or license of real property are in this state to the extent that the real property is located in Missouri.
- **Services.** Receipts from the sale of a service are in this state if and to the extent that the ultimate beneficiary is in Missouri. Generally, the ultimate beneficiary of the service (except for bartering and similar in-kind transactions) is the entity that receives benefit or value from, but does not also receive monetary or credit-based payment in direct connection with, the service at issue (other than refunds, cashback, or discount-equivalents). In the event that the ultimate beneficiary is a corporate or other entity that owns or operates in locations in multiple states, and the extent to which the ultimate beneficiary is located in Missouri cannot reasonably be determined, the extent to which the ultimate beneficiary is located in Missouri may be reasonably approximated as follows:
 - The ratio of the number of Missouri locations, which the ultimate beneficiary owns or operates in, to the number of such locations throughout the United States.
 - If the ratio above cannot reasonably be determined, then the ratio of one to the number of states in which the ultimate beneficiary operates.
 - If the ratio above cannot reasonably be determined, then use fifty percent (50%). A taxpayer will not be subject to an addition to tax for negligence in relying upon this approximation of fifty percent (50%).

RENTAL, LEASE, OR LICENSE OF INTANGIBLE PROPERTY

Receipts from the rental, lease, or license of intangible property are in this state to the extent that the intangible property is used in Missouri. Intangible property that is rented, leased, or licensed and then used in this state in marketing a good or service to a consumer is used in this state if the marketed good or service is purchased by a consumer in this state. Franchise fees or franchise royalties received for the rent, lease, license, or use of a trade name, trademark, service mark, or franchise system, or the right to conduct business activity in a specific geographic area, are receipts in this state to the extent that the franchise is located in this state.

SALE OF INTANGIBLE PROPERTY

Receipts from the sale of intangible property are in this state to the extent the intangible property is used in Missouri. If the intangible property sold is a contract right, government license, or similar property that authorizes the holder to conduct a business activity in a specific geographic area, such intangible property is used in Missouri if the geographic area includes all or part of Missouri. If receipts from the intangible property sale is contingent on the productivity, use, or disposition of the intangible property, these receipts shall be treated as receipts from the rental, lease, or license of intangible property. All other receipts from a sale of intangible property shall be excluded from both the numerator and the denominator of the receipts factor.

If the state or states to which to assign receipts cannot be determined, the state or states of assignment must be reasonably approximated and you must attach a detailed statement explaining the basis of the reasonable approximation.

LINES 4 THROUGH 12 - ALLOCATION OF NONAPPORTIONABLE INCOME

Complete Lines 4 through 12 if the taxpayer has either nonapportionable income or a net operating loss on Federal Form 1120, Line 29a, or both.

Nonapportionable income will be considered only if a detailed Form MO-NAI is completed and attached. In general, any income arising from transactions and activity in the regular course of the taxpayer's trade or business, or any income arising from property if the acquisition, management, employment, development, or disposition of the property is or was related to the operation of the taxpayer's trade or business, will be apportionable income rather than nonapportionable income

Rents and royalties from real or tangible personal property, capital gains, interest, dividends, or patent or copyright royalties, are presumed to be apportionable income unless the taxpayer clearly demonstrates on Form MO-NAI that they are nonapportionable income. To the extent one or more of these income items are nonapportionable income, allocate such item(s) as follows:

- (a) Net rents and royalties from real property located in this state are allocable to this state.
- (b) Net rents and royalties from tangible personal property are allocable to this state: (1) if and to the extent that the property is utilized in this state; or (2) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of, or taxable in, the state in which the property is utilized. The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days the property was physically located in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods during the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payor obtained possession.
- (c) Capital gains and losses from sales of real property located in this state are allocable to this state.
- (d) Capital gains and losses from sales of tangible personal property are allocable to this state if: (1) the property had a situs in this state at the time of the sale; or (2) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.
- (e) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.
- (f) Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.
- (g) Patent and copyright royalties are allocable to this state: (1) if and to the extent that the patent or copyright is utilized by the royalty payor in this state; or (2) if and to the extent that the patent or copyright is utilized by the royalty payor in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state. A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state.
A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from patent royalties or copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent or copyright is utilized in the state in which the taxpayer's commercial domicile is located.

Note: For allocation purposes, "commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed.

LINE 10 - APPORTIONED NET OPERATING LOSS

Apportion the net operating loss by multiplying it by a ratio. The numerator and the denominator of the ratio are both determined without including the net operating loss deduction. The numerator of the ratio is the Missouri Taxable Income calculated on [Form MO-1120](#), Line 13, with the amount of the net operating loss added back. The denominator of the ratio is the Missouri Taxable Income calculated as though all income, including all corporate dividends and all nonapportionable income, was derived from Missouri sources, with the amount of the net operating loss added back. Attach a detailed schedule showing how you calculated this ratio. Multiply the ratio by the net operating loss from [MO-MS](#), Part 1, Line 5, and enter the result on Form MO-MS, Part 1, Line 10. The ratio must not exceed 100%.

Method Three, Four, Five, or Six Instructions

Enter Missouri miles, total miles, and percentage in the Apportionment Election section on Form MO-MS, Page 1, if applicable. Enter the resulting mileage percentage on Form MO-MS, Part 1, Line 3 and Form MO-1120, Line 9, unless required to complete Form MO-MS, Part 1, Lines 4 through 12 as discussed below. If the mileage percentage on Form MO-MS, Page 1, is inapplicable, attach a detailed explanation of how apportionment and allocation was performed.

If the mileage percentage on Form MO-MS, Page 1, is inapplicable, or if the taxpayer utilizes any net operating loss for this tax year, or if the taxpayer has included in Taxable Income - All Sources (Form MO-1120, Line 8) any item of income to be allocated (as opposed to apportioned), the taxpayer must complete Form MO-MS, Part 1, Lines 4 through 12 and enter the resulting percentage from Form MO-MS, Part 1, Line 12 onto Form MO-1120, Line 9 Percent. When completing Form MO-MS, Part 1, Lines 7 and 9, enter income allocated (as opposed to apportioned) everywhere and income allocated to Missouri, respectively, to the extent they are items included in Taxable Income - All Sources (Form MO-1120, Line 8). Attach a detailed explanation supporting any allocation (as opposed to apportionment) of income.

Method Seven Instructions

This method can only be used with prior approval from the Missouri Director of Revenue or pursuant to a Missouri regulation creating an alternative industry-specific method under [Section 143.455.13\(1\), RSMo](#). Attach a detailed explanation of how any allocation and apportionment was performed. Either a letter of approval must be attached to the return or the detailed explanation must identify the Missouri regulation that authorizes the industry-specific method used and explain why the taxpayer qualifies for the industry-specific method. The only industry-specific method currently allowed by Missouri regulation applies to broadcasters under [12 CSR 10-2.260](#). Corporations defined as a broadcaster under 12 CSR 10-2.260 must choose Method Seven.

Complete Form MO-MS, Part 1, Lines 4 through 12 and enter the resulting percentage from Form MO-MS, Part 1, Line 12 onto Form MO-1120, Line 9 Percent. When completing Form MO-MS, Part 1, Line 3, substitute the appropriate apportionment percentage (without taking into account allocation or NOL apportionment) for the Receipts Factor. When completing Form MO-MS, Part 1, Lines 7 and 9, enter income allocated (as opposed to apportioned) everywhere and income allocated to Missouri, respectively, to the extent that item is included in Taxable Income - All Sources (Form MO-1120, Line 8). Include on the detailed explanation attachment support for any allocation (as opposed to apportionment) of income. Unless the approved method or Missouri regulation directs otherwise, the Apportioned NOL entered on Form MO-MS, Part 1, Line 11 must be determined in a manner consistent with [Section 143.455.19, RSMo](#).
