Revised 2024

NOL Instructions

The loss year return must be filed to establish the Oklahoma Net Operating Loss. If the loss is from a pass-through entity, the pass-through entity must also file a tax return.

An Oklahoma net operating loss (NOL) shall be separately determined by reference to Section 172 of the Internal Revenue Code (IRC) as modified by the Oklahoma Income Tax Act and shall be allowed without regard to the existence of a Federal NOL. For additional information, use the instructions for Federal Form 1045 "Application for Tentative Refund" or Federal Publication 536 "Net Operating Losses (NOLs) for Individuals, Estates, and Trusts."

The loss carryback and carryforward periods shall be determined solely by reference to Section 172 of the IRC. An election may be made to forego the NOL carryback period by any taxpayer entitled to a carryback period. A written statement of the election must be part of the timely-filed Oklahoma loss year return or to an amended return for the NOL year filed within six months of the due date of your original return (excluding extensions).

Notes:

An NOL that is a result of a farming loss may be carried back in accordance with the provisions contained in the IRC. However, the amount of the NOL carryback shall not exceed the lesser of \$60,000 or the loss properly shown on the Federal Schedule F reduced by 1/2 of the net income from all other sources other than reflected on Schedule F.

Computation of Itemized Deductions

When there is positive out-of-state income, the following steps, A or B, will be used to calculate the itemized deductions attributable to the Oklahoma NOL. When determining if there is positive out-of-state income, out-of-state income and out-of-state losses should be netted together. When there is no positive out-of-state income, all of the Oklahoma itemized deductions will be used to compute the Oklahoma NOL; go directly to Schedule A. If using standard deduction, go directly to Schedule A.

- A. When there is a positive Oklahoma Adjusted Gross Income (AGI) and positive out-of-state income, the amount of Oklahoma itemized deductions allowable is the Oklahoma pro rata share, as per the instructions on the Oklahoma return.
- B. When there is a negative Oklahoma AGI and positive out-of-state income, the allowable portion of the Oklahoma itemized deductions is computed as follows. The total allowable nonbusiness deductions cannot exceed the amount of nonbusiness income. For years 2018 and subsequent, Oklahoma itemized deductions are limited. Enter on lines 1 and 6 the portion of nonbusiness and business itemized deductions included in Form 511, Schedule 511-D, line 11.

	Example A	Example B	Taxpayer's Use
1. All nonbusiness itemized deductions.	10,000.00	5,000.00	
2. All nonbusiness income (including nonbusiness capital gains).	8,000.00	8,000.00
